

Dear Sirs: I would like to let you know that here in Indiana we have our own Telemarketing law. It is one of the best things to happen in this state in years. Before the law went in to effect our household would receive three to four calls a day from telemarketers. Now that the law is in place we only receive three calls a month. I realize that the practice of telemarketing is a form of advertising, I refuse to listen to there calls. What i'm trying to say to you is don't pass any regulations or laws that decrease the effective leave of the Indiana law. WE IN INDIANA ENJOY OUR KNOW QUITE EVENINGS AT HOME WITH NO CALLS FROM TELEMARKETERS.
